Hi Dr. Aaditya Prasad Gupta,

I hope everything is going well with you.

I'll be thankful if you could spare your 2 minutes of valuable time on my request. I kindly inform you that **MedCrave Online Journal of Applied Bionics and Biomechanics** is planning to release the upcoming issue by September 30th and we need only two articles to accomplish this issue. Indeed I'm limited with time, so I have chosen some recognized people like you to support us for releasing the upcoming issue. So please hold us by your contribution of at least a short Review asap.

Let me know if I can count on your submission for our Journal. I'd be really grateful if you could respond without delay.

Clement
